

The Institution of Engineers Sri Lanka Queensland Chapter Inc.

Presents

“Medical Diagnosis through Smart Phone Applications”

Date: 24th September 2017 (Sunday)

Time: 5.30 pm for 6.00 pm start

Venue: BCC Library Meeting Room, Mt Ommaney
(171, Dandenong Road, Mount Ommaney)

Background: Drawing from two decades of experience covering academic research ideation to commercialisation, Dr. Abeyratne will describe how the mobile phone revolution has provided the mankind with an unprecedented opportunity to solve tough medical problems affecting every corner of the globe - from remote African villages to the urban centres of the developed world.

Presenter: Dr. Udantha Abeyratne - Abeyratne is an Associate Professor at University of Queensland, and serves as the Director of the Master of Engineering Science programs. Over the last twenty years he has been developing mobile and accessible technologies for the diagnosis of sleep and respiratory diseases. Engineers Australia named him one of the Most Innovative Engineers in Australia-2016.

Please register your intention to attend by emailing: info@ieslqld.org and contact: Preba on 0402 147 102 or Sharmil on 0401 832 237 for more details.

Light refreshments will be served

The admission to the event is free and this is considered as a CPD claimable event for Engineers Australia. Attendees should check their individual scheme requirements.
